

Applications to Caudwell Children

Can they fund my project, organisation or charity?

No, Caudwell Children only makes donations to individual children, with the exception of our pledge to the NSPCC.

Can they donate an auction lot or raffle prize?

We do not keep a stock of either, and most of the items that we receive are used for our own fundraising.

Do they fund individual cases?

Yes we do. To qualify for funding the child must be 18 or under, have an illness or disability and live in the UK.

Where do children have to live to qualify for funding?

Caudwell Children is now a national charity, so anyone who lives in the UK and fits our criteria can apply.

Do they means test?

We do not set a ceiling level for income, but we do look at the financial situation of the family. We take the household expenditure and the cost of the item requested into account. The only exception to this is for children in foster care.

What do they fund?

We make a huge variety of donations, which include therapy, treatment, dying wish holidays and specialised and mobility equipment. The charity have confirmed they will support applications for specialist sports glasses, as long as the need for the equipment is supported by a medical professional and a coach/manager then they would be applicable for a donation.

How do I apply?

All applications must be made on one of our application forms. These can be downloaded from this web site or you can request that we post one to you by calling 0845 3001348 and leaving your name and address, (please spell out any difficult words) or by emailing charity@caudwellchildren.com
